Stéphane Wailliez took some time out of his ongoing research project on the work of the *Consilium*, the committee that produced the texts of the New Mass, to share some of his findings with the CFN Conference. He shared some insights he has gained studying the archives of the work to produce the Propers for the New Mass (and especially the new Lectionary).

During the conference, Mr. Wailliez sat down with Editor-in-Chief Brian McCall to share his experience of the fight to preserve the True Mass in Europe when he was being raised by devout parents.

Audio recordings of all the presentations from our 2019 CFN Conference, "The New Mass: Fifty Years of Problems", are available for purchase from our online store. Remember, your financial support is what makes our efforts possible, so please be generous and help us keep CFN going strong!
