*Catholic Family News* is pleased to make available the conference of Fr. Albert Kallio, a traditional Dominican who serves as the theological advisor to CFN, entitled, "The Problems with the New Sacraments". Originally presented at our 2019 conference, this video surveys some of the major problems and flaws of the new rites for the administration of the sacraments. Although the 2019 conference was focused on the Modernist-inspired changes to the Mass, we did devote this one conference to the other sacraments.
