Many traditionalists, including many of us at Catholic Family News, were optimistic about the victory of Trump in the 2024 election. However, as traditional Catholics, we have to recognize that the MAGA agenda has always been a number of steps behind the full agenda of restoring Christ the King. It is important, in order to protect the common good, that we make sure to hold the new Trump administration accountable, and I believe this starts with making sure an America First Immigration policy is implemented. In this CFN Highlight, Brian McCall and I review the latest controversy involving the H1B Visa policy.

“Well what is the full agenda of Christ the King then?”

We will be talking about this at our Florida Conference focusing on the writings of Father Fahey with great speakers such as Dr Kwasniewski, multiple traditional priests, Dr. John Rao and more.
