

New Video Released: The Problems with the New Sacraments

Catholic Family News is pleased to make available the conference of Fr. Albert Kallio, a traditional Dominican who serves as the theological advisor to CFN, entitled, “The Problems with the New Sacraments”. Originally presented at our [2019 conference](#), this video surveys some of the major problems and flaws of the new rites for the administration of the sacraments. Although the 2019 conference was focused on the Modernist-inspired changes to the Mass, we did devote this one conference to the other sacraments.
