

Supplication of Archbishop Carlo Maria Viganò to the Most Holy Virgin Mary

For over a year, the whole world has been held hostage by an elite that, under the pretext of the pandemic, intends to create the conditions for the Great Reset and the establishment of the New World Order. This latest revolution, planned by the enemies of God and the human race, is certainly an infernal work, and as such it must be combated by recourse to the spiritual weapons of prayer, fasting, and penance. I exhort faithful Catholics to recite the Holy Rosary daily during this month dedicated to the Blessed Virgin, adding this supplication. May the Mediatrix of All Graces, the Queen of Victories, assist us with her patronage in these moments of apostasy and grant us the virtue of Fortitude to resist evil and obtain the conversion of sinners.

+ Carlo Maria Viganò, Archbishop

August Lady and Queen of Heaven, turn Your gaze upon us Your children in this hour of darkness and affliction. Do not disdain to hear and answer our humble and confident prayer, at a moment when the forces of the Enemy are multiplying their infernal assault against God, His Church, and the human family.

You who are the model and example of humility and obedience to the will of God, enlighten our rulers, so that they may remember that the authority they exercise comes from the Lord, and that they will have to answer to Him, the Just Judge, for both the good they have not done as well as the evil they have committed. You who are the Virgin Most Faithful, teach those who administer public affairs to honor the moral obligations of their office, refusing any connivance with vice and error.

You who by Your intercession before the Throne of God heal the evils of soul and body and are rightly invoked as Health of the Sick, guide doctors and health care workers in their profession. Help them to care for the sick and to give assistance to the weakest among us.

Supplication of Archbishop Carlo Maria Viganò to the Most Holy
Virgin Mary

Give them the courage to oppose those who would force them to cause death or illness with inappropriate treatments or harmful drugs. Invoke the Divine Physician of our souls, Our Lord Jesus Christ, asking Him to awaken in their conscience an awareness of their role and their duty to promote the life and health of the body.

You who during the Flight into Egypt saved Your Divine Son from the massacre of Herod, deliver our children from the moral and spiritual threats that loom over them. Protect our little ones from the true pestilence of sin and vice, and from the criminal plans of the ideological dictatorship that wants to strike them in body and spirit. Strengthen parents and educators to oppose the experimental use of a dangerous and morally illicit drug on our children. Thwart the attacks of those who assault their innocence, trying to pervert them from an early age by corrupting their morals and warping their intellect.

You who were consoled by the presence of Your Son in Your passage to eternal life, be close to the sick, the elderly, and the dying, especially those who, due to inhuman regulations, face death alone in a hospital bed, deprived of the Sacraments. Bring them comfort. Inspire in them repentance for the sins they have committed and the desire to offer their sufferings in reparation for these sins, so that they may close their eyes with the consolation of the friendship of God.

You who are called Mother of the Priesthood, enlighten our Shepherds. Open their eyes to see the present threat. Make them consistent witnesses to Christ Your Son, courageous defenders of the flock that the Lord has entrusted to them, and valiant opponents of error and vice. Shake off from them, Virgin Most Holy, all human respect and all connivance with sin. Inflammate them with love for God and their neighbor, enlighten their minds, and strengthen their will.

You before whom all the demons of Hell take flight, defeat the diabolical plans of this hateful tyranny, the deception of the pandemic, the lie of the workers of iniquity. Make the light of Truth shine upon the lie, just as the true light of Christ shines upon the darkness of error and sin. Confuse Your enemies and humiliate under Your Foot the proud head of those who dare to challenge Heaven and want to establish the Reign of Antichrist.

You who by divine decree are Mediatrix of All Graces and Our Co-Redemptrix, obtain for us the grace of seeing the triumph of Your Immaculate Heart, to which we consecrate ourselves, our families, our communities, the Holy Church, our Homeland, and the whole world.

So may it be.

Supplication of Archbishop Carlo Maria Viganò to the Most Holy
Virgin Mary
