

WATCH: Catholic Race Theory — The Church’s Solution to Contemporary Conflicts

Catholic Family News editor-in-chief Brian McCall has an extended conversation with *LifeSiteNews* journalist Stephen Kokx and independent researcher Daniel Vasko. They discuss the five-part series that CFN has serialized in its monthly paper (Sept. 2021, Nov. 2021—Feb. 2022 issues). After extensive research, Kokx and Vasko relate important insights from Scripture and Tradition about the relationship and complementarity of the races, or more accurately, the generations of Noah. They contrast contemporary theories that incite hatred and conflict with Catholic explanations that emphasize the unique gifts of each tribe of Noah and each one’s need for the balance brought by the others. It is a very informative and consoling discussion that introduces viewers to their more extensive analysis in the published articles.
