

Pope Francis died today, Easter Monday, aged 88. Already the Vatican is swarming with preparations, the Cardinals have been summoned to the Vatican and the Catholic world eagerly awaits the inevitable drama with the oncoming new pontificate.

But let us all take a moment during this Eastertide to remember to pray. Let us not be as the pagans with a naturalistic death but remember that our prayers have a real impact for the dead.

We will be hosting a live Rosary according to the method of St. Montfort at 9 PM ET on all of our platforms. Join us, and let us remember to pray for the late Pontiff throughout this Easter season.
